

Fred Kolberg, CEO.

US Navy SEAL (Retired)

A Special Operations SEAL Medic (18D), Mr. Kolberg retired from the teams in 2003 after 21 years. Mr. Kolberg specialized in combat medicine and excelled as a SEAL Operator in multiple platoons completing numerous missions. Following retirement, he supported Operation Iraqi Freedom and Enduring Freedom as a contractor with various government agencies completing multiple deployments. Recognized for his outstanding training capabilities, Mr. Kolberg was hand-selected by the Navy to create training programs and curriculum.

Julie Kolberg is responsible for the management and daily operations of T². Her knowledge and experience in business administration keeps the company progressing forward and focused on our mission. Mrs. Kolberg is a Certified Moulage Specialist creating the realistic wounding on role players. Mrs. Kolberg also handles all the pyrotechnics that create the stressors for our clients.

TACTICAL COMBAT CASUALTY CARE (TCCC)

THREE (3) PHASES OF CARE

- Care Under Hostile Fire
- Tactical Field Care
- Combat Casualty Evacuation Care

a total immersion training experience

TCCC MEDICAL TRAINING

Trauma Training FX (T²FX) focuses on instructional medical training using the guidelines of Tactical Combat Casualty Care (TCCC), from the PHTLS 6th Edition Military, enabling students to respond to any situation. Using these procedures, Trauma Training arms its students to handle life threatening situations while reducing casualties. Proven in real world combat, we have trained non-medics that have implemented the TCCC standard of care and have saved lives. With the ever increasing threat of terrorist attacks worldwide, our military, police, SWAT plus many corporations and organizations are benefiting significantly by receiving this training. Our course of instruction is designed to standardize the approach of the most expedient way to respond to virtually any situation and save a life.

TRAINING EXERCISES

Instructed by former special operation medics and other experts with operational experience, the course material takes the customer through classroom instruction to practical hands-on skill stations which facilitates the learning process. Students are taught the most expedient way to save casualties on the battlefield or in tactical situations. A final training exercise (FTX) is conducted to further enhance the learning process. The culmination of the training will be hands-on training with USDAAT Modalities Training. Depending on the client's needs, drills can be customized and implemented in the FTX using simulated pyrotechnics to create stressors as well as Hollywood style Moulage..

VIRGINIA BEACH TRAINING CENTER
T²FX is also an American Safety and Health Institute Advanced Training Center (ASHI), and established the Virginia Beach Training Center. We can certify our customers as First Responders as well as provide continuing education units (CEUs).

TACTICAL EMERGENCY MEDICAL SUPPORT (TEMS)
T²FX provides trauma supportive care following TCCC guidelines for police officers, SWAT Team Operators and law enforcement personnel working within the tactical environment.

CORPORATE WARRIOR
The "Corporate Warrior Casualty Care" (CWCC) has emerged to train and prepare corporate America in the most expedient way to save a family member, friend or a co-worker's life, in the event of a natural disaster or in the next unfortunate terrorist attack.

WE CUSTOMIZE EACH COURSE FOR THE CUSTOMER'S INDIVIDUAL NEED

In the event of a mass casualty from a natural disaster, a terrorist attack, or if a co-worker is attacked on the job, knowing what to do next, can save not only your life but increase the chance of survival for the other casualties
