Thank you for your interest in Tactical Training, Inc. (T²). We proudly present an overview of our corporate capabilities and invite you to learn more about our company by visiting www.T2Training.com.

Tactical Training, Inc. (T²) is a woman-owned Business founded in 2007 by Fred and Julie Kolberg to provide high-quality tactical training. T² provides training to federal, state and local government agencies across the United States of America. We provide customized services and products for each of our clients.

Our company has a superior commitment to meaningful services and delivers far more than the client's perceived needs. The commitment to our customer is to provide the highest quality of training in the most cost-effective manner.

Our distinguished capabilities include the following:

- Outstanding past performance ratings
- Consistent cost savings for clients
- Superior record of on-time deliveries
- High staff continuity on contracts
- Excellent financial stability and credit
- Consistent on-time payments to vendors
- Proven success as both a Sole Source Provider and a Subcontractor

EXPERTISE

Only top notch instructors perform the training, who are former or retired U.S. military maintaining Secret and above clearance, and professionals that work in local and state level positions. All of our personnel have past performance with DoD, Special Operations, and Department of Homeland Security.

TRAINING

If you want to learn how to respond to the threats and attacks experienced in the more volatile parts of the world, or in the event of a terrorist attack on U.S. soil, our training is the only way to prepare yourself, team or company. A book or a classroom cannot facilitate your readiness for these circumstances. You need our hands-on, immersive training experience.

FLEXIBILITY

T² provides on-site training as well as training near their headquarters in Virginia Beach. A mobile training team stands ready to implement training wherever the client requires. Our flexibility enables us to act on short notice, offer responsive solutions and produce high-quality training, delivering our services on time and within budget.

QUALITY

We know exactly what to do. There is a right way and a wrong way to respond. Seconds matter. Best practices are critical. We not only know the exact way to respond in an emergency, but we also know exactly what's required to make training and preparation for that emergency more effective. Our graduates are trained to respond to the emergency without being overwhelmed by the crisis situation itself.

INSTRUCTORS

Our instructors are former Military Special Forces, SWAT and police with operational experience. They are Knowledgeable, Capable, Competent and Confident.

APPROACH

Our approach takes the customer through classroom instruction to practical hands-on skill stations which facilitates the learning process. Students are taught the most expedient way to accomplish the task at hand in tactical situations. Final training exercise (FTX) packages can be implemented at the customer's request to culminate the training and are customized to meet each client's unique mission.

Day and night practical's and scenarios with live fire, tactical driving, simulated machine gun, RPG, mortars, claymores, IEDs, smoke, etc. are all components that can be added to the culmination exercises. We believe in taking the student through a total immersive training experience.

It is our goal to provide the highest level of services. We pride ourselves in professionalism and integrity providing our clients with the best training available.
